

## **JUNE 30, 2012: LEAP OF FAITH**

As we aimlessly drift closer to the abyss of perpetual non-awareness, it is truly our destiny to awaken the spiritual consciousness in ourselves in order to form an understanding at the proper given time of ascension. To achieve this goal, it will be necessary to give up some of your current beliefs and controls. This is the only way to reveal the truth. By developing the spiritual pathways that will be needed to join the collective consciousness, that electromagnetic intuitive, psychic and wireless, frequency channel to the celestial and divine spirit of God.

We must make an adjustment in our daily lives to rationally remove religion the crutch, and encourage religion the enabler. Make a concerted effort to let go of the dogmatic ways of the past that have held back the human potential of our intellectual evolution by changing the way we think, and promoting the insidious non-belief in ourselves as human beings. We must rehabilitate the existing matrices of thought by inviting a newer more vital dawn of enlightenment into our heart.

So in other words in order to achieve oneness, spiritual harmony and make the divine connection, you must first take a "Leap of Faith". This will be important and necessary for the reintegration of thought processes and the reawakening or activation of your system of belief. Now I am not saying that you should stop believing in what you believe in. No, that is not it at all. I feel it has more to do with the way the word is reiterated.

If we compare the way organized religion delivers its message, to that of the digital delivery system, we begin to realize that it is not the content so much as it is the way in which it is received. In the same manner that digitalized music loses all of its strength, power, and significance, so too does the meaning and the message of the word as it is conveyed through the processes of organized religion. The really deep and meaningful passages have either been removed or altered in a bid to manipulate the masses into a control structure that is better suited to ensuring the power of the church, where it should instead be promoting the love and glory of God and the spirit.
